Advanced Excel: Pivot Tables, XLOOKUP, VLOOKUP, INDEX-MATCH, Power Query, Data Cleaning, Large Dataset Management

Data Analysis: KPI Definition, Metric Standardization, Trend Identification, Forecasting Support, Research Analysis

Data Quality & Validation: Data Validation, Quality Assurance, Reporting Logic Documentation, Data Consistency Review, Accuracy Verification

SQL & Data Querying: SQL Query Development, Data Extraction, Data Transformation, Reporting Dataset Preparation

Visualization & Reporting Tools: Power BI, Tableau, Looker Studio, Google Sheets, Excel

Automation & Scripting: Reporting Workflow Automation using Python, JavaScript, and Google Apps Script

Collaboration: Stakeholder Support, Requirements Gathering, Executive Presentations, Cross-Functional Communication

Other Tools: BigQuery, Shopify Analytics, GA4, Docker, Superset, Workato, Filevine

WORK EXPERIENCE

Freelance Data Analyst & BI Developer

Apr 2024 – Jul 2026

Delivered data analytics, business intelligence, reporting, dashboard development, and workflow automation solutions for clients across legal, e-commerce, fintech, cloud analytics,

and IT industries. Collaborated with stakeholders to develop reporting solutions, improve data quality, automate manual processes, and support business decision-making.

Law Firm | BI Developer

Aug 2025 – Jul 2026

- Built and maintained Power BI dashboards tracking firm-wide, attorney, and paralegal performance metrics, including case counts, client recovery, NPS scores, billing rates, and CAQs.
- Managed recurring reporting cycles and participated in daily BI sync meetings and weekly efficiency meetings to deliver structured performance updates.
- Designed executive dashboards presenting high-level KPIs and business trends for firm leadership.
- Connected Power BI reports to BigQuery datasets and performed data transformation using Power Query and BigQuery views.
- Performed data validation, quality assurance, and documentation of dashboard logic to improve reporting accuracy and consistency.
- Collaborated with stakeholders to enhance dashboard usability and reporting efficiency.

E-Commerce | Data Analyst

Jan 2025 – Dec 2025

- Managed recurring daily, weekly, and monthly reporting for revenue, customer behavior, and marketing performance.
- Built dashboards and ad hoc reports tracking KPIs including conversion rate, ROAS, AOV, retention, revenue, and campaign performance.
- Cleaned, validated, and standardized large datasets using SQL and advanced Excel functions.
- Automated reporting workflows using Python and Google Apps Script to reduce manual reporting tasks.
- Extracted affiliate marketing data from Pepperjam Ascend and performed web scraping to support campaign reporting.
- Supported marketing teams by identifying trends and providing actionable performance insights.

Enterprise Cloud Analytics | BI Developer

May 2025 – Jun 2025

- Developed Tableau dashboards supporting enterprise reporting initiatives.
- Queried, transformed, and validated datasets using SQL in Azure Databricks.
- Optimized reporting pipelines and collaborated with stakeholders to define KPIs.

- Ensured accurate and reliable reporting through data validation and quality assurance.

Fintech | Data Analyst

Apr 2024 – Jul 2025

- Annotated, validated, and structured financial datasets using Python and SQL.
- Prepared standardized datasets for reporting, research, and business analysis.
- Conducted ad hoc financial research supporting risk evaluation and market insights.
- Automated data validation processes and documented reporting workflows.

IT Company | Data Analyst

Apr 2024 – Nov 2024

- Built dashboards monitoring sales performance, customer satisfaction, and churn metrics.
- Prepared and managed datasets using SQL and Google Apps Script.
- Analyzed customer and operational data to identify trends and improvement opportunities.
- Delivered recurring reports supporting retention strategies and operational decision-making.

City Government of Antipolo

Administrative Assistant II

Feb 2023 – Aug 2024

- Served as custodian of official receipts, ensuring accurate recordkeeping and documentation of financial transactions.
- Conducted daily audits of collectors' receipts and supporting documents to verify completeness and compliance.
- Encoded, reviewed, and validated operational and financial records submitted by multiple departments.
- Identified and resolved discrepancies by coordinating with collectors and concerned offices.
- Consolidated validated records into summary reports for management review and audit support.
- Maintained organized digital and physical filing systems while ensuring compliance with data privacy and records management standards.

Revenue Collection Clerk I

Sep 2018 – Feb 2023

- Recorded daily revenue collections and transaction data into official government systems.
- Verified payment records against official receipts and supporting documentation.
- Reconciled daily transaction totals and prepared summary reports for financial reviews and audits.
- Identified and resolved discrepancies before final posting.
- Retrieved historical financial records for audit, reconciliation, and management requests.
- Ensured compliance with government financial procedures and documentation standards.
